INGREDIENTS

Sugarcane Molasses, Condensed Fermented Corn Extractives, Urea, Phosphoric Acid, Manganese Sulphate, Zinc Sulphate, Copper Sulphate, Cobalt Sulphate, Sodium Bentonite, Ethylenediamine Dihydroiodide (EDDI), Selenium Premix (Reg #950120), Vitamin A, Vitamin D, Vitamin E.

FEEDING DIRECTIONS

- (1) - 42% Liquid Supplement may be mixed with grain, top dressed on grain, silage, hay, or other roughage
 - (2) - total mixed ration (TMR), thoroughly mix at 3 to 6% of the total dry matter intake.
 - (3) - fed free choice in a lick tank feeder.
- The intended intake on a free choice basis is 0.65kg per head per day.

The following feeding recommendations should be observed:

- * Provide unlimited fresh, clean water.
- * Provide adequate, available roughage and source of energy at all times. Do Not feed free choice to energy starved or hungry livestock.
- * Allow cattle to have access to free choice salt and calcium mineral.
- * Allow cattle up to two weeks adaptation time.
- * For best results and to prevent repeating re-introduction periods, have 42% Liquid Protein Supplement available to cattle a all times and continuous basis.

Caution:

- (1) -This feed contains UREA...not more than 1/3 the protein, available in the complete ration of the animal, should be provided in the form of non-protein nitrogen.
- (2) Do not use in association with another feed containing supplemental selenium.
